Save Time - Save Energy - Get Great Gift Ideas!

Promomento makes it easy for you to promote your project and reward your team. We help project managers, team leaders, coordinators, and executives generate momentum for new projects, celebrate the completion of successful projects, and build team spirit for all phases in between. Here's how we can help you:

Contact Us

Call us, email us, or fill out the Free Ideas form on our website. We'll gather information about you, your team, and the occasion you are celebrating so we can research gift ideas for you. Our research is free.

Receive Free Gift Ideas

We'll send you photos, product details, and pricing information. In many cases we can also send you a sample. Review them and tell us what you think. Based on your feedback we can refine our search and generate additional ideas at your request.

Place Your Order

Once you choose a gift you like, we'll process your order. If you want us to imprint a logo or personal message on your gift, we'll provide specifications so you can send us an electronic copy. Depending on the nature and cost of the gifts ordered, a deposit may be required. For customized orders, we'll send you a Purchase Order to review and sign.

Review A Proof

If you order a customized gift, we will fax or email you a proof of what your logo or message will look like on the product. Depending on the nature of your gift, we may also send you an actual pre-production sample for you to review and approve. We send your order to production after you sign off on the proof.

Receive Your Gifts

In-stock, non-customized items typically ship in 1-2 days after your place your order. If you order customized gifts, it typically takes between 5-15 business days to produce them. Your gifts are shipped either to you or directly to the gift recipients – it's your choice!
